PROFESSIONAL SUMMARY

Cybersecurity graduate and help desk professional with experience in ticket triage, technical troubleshooting, and customer support in a federal environment. Hands-on projects in network configuration and Microsoft Entra ID administration, backed by CompTIA Security+, A+, Network+, and PenTest+ certifications.

CERTIFICATIONS

CompTIA Security+ | CompTIA A+ | CompTIA Network+ | CompTIA PenTest+ - Valid through 2029

TECHNICAL SKILLS

IT Support: Hardware diagnostics and repair, desktop/laptop setup, peripherals, printers, remote support, incident diagnosis, ticket documentation, VoIP and audiovisual troubleshooting, Salesforce.

Systems and Networking: Windows, macOS, Linux, Active Directory, Azure, Microsoft Entra ID, DNS, DHCP, IP addressing, VLANs, NAT, cabling, command-line tools, VMware, VirtualBox.

Security and Tools: Splunk SIEM, EDR, next-generation firewalls, GRC fundamentals, CJIS standards, Python, AI agent deployment, Microsoft Teams, Zoom, Slack, Notion, Identity Access Management (IAM), CVSS, CVE.

PROFESSIONAL EXPERIENCE

AI Help Desk Agent | Accenture Federal Services / ASM Research

San Antonio, TX | Sep 2026 - Present

- Triage and process support tickets across severity levels for a major AI client in a federal environment, maintaining accurate ticket records.
- Provide customer-focused, high-level support to individual users, small-medium businesses, and enterprise organizations.
- Leverage generative AI to research issues, troubleshoot problems, document tickets, and deploy agents across platforms to automate tasks and simplify workflows.

Delivery Associate / Trainer | Amazon DSP

San Antonio, TX | Dec 2024 - Sep 2026

- Leveraged mobile enterprise devices to efficiently plan and execute daily delivery routes, achieving a 99.9% customer satisfaction in 1000+ weekly deliveries.
- Trained 30+ new hires using a 40-point checklist and led peak-season training efforts on safe, accurate, and efficient delivery practices.
- Resolved mobile equipment and route-planning issues to minimize downtime; sustained top performance metrics over consecutive months and remained safety violation-free for over one year.

TECHNICAL PROJECTS

Simulated Business Network | Cisco Packet Tracer

- Configured routers, switches, and three VLANs with DHCP, DNS, NAT, firewall rules, and port forwarding to support network connectivity and segmentation.

Cloud Identity Administration Lab | Azure and Microsoft Entra ID

- Created and managed 30+ user accounts, permissions, and group policies in a mock organization; implemented role-based access control (RBAC), least privilege, multifactor authentication (MFA), and self-service password reset (SSPR), with Identity Access Management (IAM) at the focal point.

EDUCATION

Western Governors University

B.S., Cybersecurity & Information Assurance | Sep 2026

Kellogg Community College | Battle Creek, MI

AAS, Cybersecurity Program, Magna Cum Laude | 2023
